

**CAMP
SNOOPY™**
MALL OF AMERICA

To Whom it May Concern:

Mark Snyder has been instrumental in the successful completion of several projects in Camp Snoopy/Mall of America. These projects have ranged from large, complex jobs, such as the installation of our roller coaster, flume and Mighty Axe rides, to minor facility remodels. Mark has been a great resource on all of these projects, working closely with our management to get the job done within tight budgetary and time constraints.

The quality of the work performed under Mark's direction has been outstanding. For example, our four-month, \$800,000 Mighty Axe project was completed on an accelerated schedule with only one punch list item noted during the final walk-through. He takes great pride in the work performed and it shows in the final product.

I have a very high regard for Mark's integrity and the quality of his work. He has done many jobs for Camp Snoopy with great results and at a very reasonable cost (he has never been under-bid). I would not hesitate to recommend Mark and his company, Construction Results, for any construction project, large or small.

Sincerely,

Craig Freeman
Vice President, General Manager
