To Whom It May Concern:

When I was given the job of managing the remodeling project for our new corporate headquarters, I knew I needed to speak to a good friend of mine who owns and operates a commercial HVAC company. I knew he had experience with many general contractors over his twenty plus years in business. When I discussed the scope and general details of my project and asked who he would recommend, without hesitation he said I would be very pleased with Construction Results Corp. This in itself is a powerful recommendation in my opinion.

Our remodeling project was completed near the end on February and we are extremely pleased with the final product. John and Mark Snyder are true professionals and it was a pleasure to work with them. John managed my project with great interest and care towards all details. Communication was excellent throughout the entire project. There were no surprises in the scope of the work or in the final billing. Additions and deductions were all organized and accounted for, again; no surprises. The quality of their work and management of sub-contractors was excellent.

All of this made my job very easy to manage and so now, I too would not hesitate when any one asks me for a recommendation for a general construction contractor. Construction Results Corp has done an outstanding job for us and I am confident they will handle your project with same care and excellence they provided to CATCO Parts and Service. You will be happy when the job is done!

Sincerely,

Jeff Merkling
