

TO WHOM IT MAY CONCERN

Re: Construction Results Corporation

In February 2003 Construction Results Corporation constructed an 85' exterior handicapped ramp at Building 23 of the Veterans Home in Hastings.

The ramp was constructed with high professional workmanship, within the budget, and last, but not least, within a very tight time schedule.

The carpenter worked outside under cold weather conditions and still performed a commendable job of building the ramp.

I can highly recommend Construction Results Corporation for any future construction projects.

Sincerely,

Gitte Mohr
Facility Project Manager
