Gene Orr, Pastor

(763) 559-2946

To Whom it may concern,

Construction Results Corporation was the General Contractor for a building expansion project at Plymouth Presbyterian Church, Plymouth, MN. We chose Construction Results over several other contractors based on their experience and reputation in working with other church congregations. They provided our church with the appropriate information needed for communication with the congregation as it pertained to the building project. They were exceptional at cost management and quality selection of both materials and sub-contractors,

As the Chairman of our Building Committee I highly recommend Construction Results. They have a deep commitment to serve the religious community in all phases of construction. They met and exceeded our expectations for our project.

Respectfully Yours;

Kenneth Kripe
