Dear John,

I would like to thank you for being with us last Sunday as we celebrated our dedication. It was a great day for us and I appreciate your presence with us. We have heard great comments on the building and people wondering why we didn't do this earlier.

I have appreciated working with you and everyone connected with your company. Not only did you finish on time, but I always felt you were looking out for our best interests. I'm sure we saved thousands of dollars because of your involvement. If you ever need a reference do not hesitate to call me or use us. I know the Task Force feels the same way. Your company was outstanding

Again, thank you for being with us. It meant a lot to me and our congregation.

Yours in Christ,

Pastor Ray Peterson
