General Contractors  
14170—23<sup>rd</sup> Avenue North  
Plymouth, Minnesota 55447

Dear Mark,

A special thanks to Construction Results for your work with the St. Luke Presbyterian Church building project. It has been an incredible experience for the congregation to move back in to the church, having been out of the church building for over seven months, and their expressed satisfaction in a job well done. The work carried out by Construction Results has created a healthy, welcoming, and warm environment and a "rebuilt" church in which people take pride.

Recognizing the complexity of the issues at St. Luke (mold, moisture, and air-quality issues, alongside the church's timeframe, and the details of the structural and HVAC issues) we have truly benefited from the experience and care shown by Construction Results.

We are also aware that through your oversight we have been able to accomplish additional aspects of the project while staying in-line with the projected budget. It is important you know that this is much appreciated.

Thank you for your work with St. Luke and best wishes in the future. We appreciate your work with our building project and we are more than happy to recommend Construction Results in the future. Should you need any additional references please count St. Luke among those who have benefited from your services.

With Gratitude,

Brad Froslee  
Pastor, St. Luke Presbyterian Church
